

# Northeast Rehabilitation Hospital at Pease

## NOW ACCEPTING PATIENTS

Now  
Open!

*Our new inpatient hospital has been designed to meet the needs of injured and disabled individuals in the Seacoast community.*

### *Patient Rooms*

- 33 spacious and private rooms offer a healing environment for both patients and families, ample open space, patient lounges and dining areas, benches, and a gazebo

### *“Independence Way”*

- A safe environment that eases patients back into everyday activities, such as getting in and out of a car, using public transportation like a trolley, or shopping and paying for groceries. There is a mock store with cashier, reach in coolers, multiple height shelving, booths and a mail box. A theater provides an opportunity to watch a movie or participate in WIIR rehab an interactive computer game that provides an opportunity to work on balance / coordination, and cognitive skills

### *Outside Mobility Park and Therapy Gardens*

- Provides the ability to address real life situations, ramps, curbs, gentle and steep inclines/declines, level and unlevel surfaces
- Provides a pleasant spacious environment and moves the inpatient therapy out of a formalized/controlled environment
- Garden area provides patients with an opportunity to participate in therapeutic gardening and outdoor leisure activities in a serene setting with a focus on wellness and recovery

### *Inpatient Occupational and Physical Therapy Gyms*

- Featuring expansive windows, and our bright, state of the art inpatient therapy rooms to provide an environment that promotes motivation and hard work supporting our patients' return to home and family
- Occupational therapy gym includes a kitchen and ADL room that provides realistic bedroom and bathroom areas to assess equipment needs and modify treatment plans
- Physical therapy gym features brand new equipment needed to improve functional mobility and build body strength and coordination

### *Inpatient Services*

- Dialysis Suite
- Radiology Department for routine x-rays and fluoroscopic swallowing studies
- Full service inpatient pharmacy to meet any pharmaceutical needs
- Animal Facilitated Therapy specializing in the use of animals for communication disorder therapy
- Beauty Parlor
